

Ramadan Adewale

Frontend Engineer / React, Next.js & TypeScript

Professional Summary

Frontend Engineer with hands-on experience building modern web applications using Next.js, React, and TypeScript. Skilled in creating responsive interfaces, integrating APIs, and contributing to real-world products. Focused on writing clean, scalable code and continuously improving through practical experience.

Technical Skills

Languages	TypeScript, JavaScript (ES6+), HTML5, CSS3
Frameworks	React.js, Next.js, Tailwind CSS
State Management	Zustand
Tools	Git, GitHub, Vercel, PostHog, Cloudinary, Figma

Professional Experience

Jan 2026–Present	Junior Frontend Engineer, Lena (EdTech App & Landing Site), Lagos, Nigeria - Designed and implemented a multi-role onboarding and authentication flow, streamlining the experience for both parents and schools. - Integrated PostHog for product analytics and managed a localization (i18n) system with 2,500+ translation keys. - Built the landing page UI and developed responsive components tailored to dual audiences (schools and parents). - Contributed to an offline-capable Progressive Web App (PWA) with background synchronization to support usage in low-network conditions.
Dec 2025	Frontend Developer / Core Contributor, Spotlight - Built end to end authentication flows with backend integration. - Architected scalable global state management solutions using Zustand. - Translated complex Figma mockups into pixel-perfect, responsive interfaces for Landing, Explore, and User Dashboard modules. - Optimized media delivery by interfacing with Cloudinary.
